POWER CAN WHEEL SILVER

Ready to Use

Description

Power Can Wheel Silver is a 1K ready to use metallic coating in an aerosol. It is used for refinishing metallic surfaces in order to achieve a uniform dark shade metallic finish.

Power Can Wheel Silver is capable of producing a coating of a finish similar to that of a spray gun applied coating. The convenience of using a coating in an aerosol means that masking is kept to a minimum. Mixing paint and cleaning spray equipment are avoided as a result of using **Power Can Wheel Silver** leading to savings in time and materials.

Power Can Wheel Silver is isocyanate free.

Health and Safety Statement

FOR PROFESSIONAL USE ONLY. Read full instructions before use. IMPORTANT: This product contains hazardous materials and therefore appropriate personal protective equipment should always be used. Please refer to the label and consult the material safety data sheet for full handling instructions and personal protection information. These are available via your local stockist or via the U-POL website at WWW.U-POL.COM. U-POL disclaim any liability where the user does not wear the recommended personal protective equipment.

Surface preparation and instructions for use

Power Can Wheel Silver can be applied using the preparation procedure shown below: -

Thoroughly clean and degrease surfaces with a suitable spirit wipe or thinner. Abrade surface wet or dry with 400-600 grit abrasive, re-clean, dry and degrease with a suitable degreaser such as UP2022 Wax and Grease Remover.

Application

Shake can thoroughly before use for a minimum of 2 minutes.
Apply 1-2 light even coats.
Allow 5 minutes flash off time between coats.

Drying time

For optimum gloss and durability overcoat with **Power Can Clear Coat** do so within a period 20-60 minutes after application of the **Power Can Wheel Silver**.

Drying time is dependent upon film thickness, humidity and temperature.
