Custom Can
For Water or Solvent Based Aerosols

TECHNICAL DATA SHEET & PROCESS GUIDE
Pre-gassed aerosols ready to be filled with 100ml paint * using one of the U-POL provided aerosol filling machines.

- Allows for precise color matching and time saving application with solvent based coatings.
- Allows you to carry a smaller stock of colored aerosols.
- Fitted with the valve/nozzle configuration that produces a clog-free, spray gun like application.
- Compatible options for most solvent and water based coatings.
- UP0818 and UP0852 compatible with most water based coatings.
- UP0811 and UP0851 compatible with most solvent based coatings.

TECHNICAL DATA
Technical data for application of the filled aerosol will depend on the product used. Please refer to the paint manufacturer's instructions for suitable substrates, number of coats, drying times, etc. U-POL has tested compatibility for a wide range of automotive basecoats, but would advise you to test compatibility and storage stability of a new product before use.

APPLICATION GUIDE
Tools Required
- U-POL Custom Can filling machine:

![Images of aerosol filling machines]

Filling
For best results, invert can and clear valve before filling.
Refer to the machine manual for filling instructions.
Fill with maximum 100ml paint. Do not attempt to fill with more than 100ml of any paint product. Compatibility and storage stability will vary with formulation. Check the product quality before giving to the end user.

Once filled, shake for 2 mins to mix product and then clear the valve. * Do not attempt to fill with more than 100ml of any paint product.
Either replace the actuator or use a purging tool and spray the inverted can until only gas is expelled. Always store aerosols with an actuator attached to stop the valve from swelling.
Custom Can

TECHNICAL DATA SHEET & PROCESS GUIDE

Surface preparation and instructions for use

For best results, good preparation is essential.
2) Sand surface wet or dry with 400-600 grit sandpaper.
3) Re-clean, dry and degrease again.

Mixing

Shake the aerosol can for at least 2 minutes before use.

STORAGE & VOC INFORMATION

Shelf Life

2 years from date of manufacture, unfilled, subject to good storage conditions.
Once filled, the shelf life will vary depending on paint product used, please refer to the paint manufacturer's instructions for details.
Aerosol cans should be stored for two hours at room temperature before use. For long term storage, keep in a dry well ventilated area and away from direct sunlight and frost. To clear the nozzle and maximize the lifespan of your aerosol, always invert the can and spray upside down for a few seconds after each use. If the nozzle becomes blocked, remove it from the can and soak it in gentle
Recommended Storage Temperature 41°F - 77°F
Recommended Application Temperature 68°F
