**S2001 & S2002**

**Solvent Based Degreaser**

**DESCRIPTION**

Anti-static and anti-silicone panel wipe with aggressive degreasing action to remove contaminants such as wax, grease and silicones. It is suitable for use on bare metal and existing paint surfaces prior to any painting operation. Two speeds available with fast evaporation ideal for localised panel repairs and slow degreaser for larger repairs.

- Does not attack existing paint films
- Effectively removes contaminants and static
- Compatible with most paint systems

**Typical Use** - SYSTEM 20 DEGREASERS are a carefully formulated to provide a powerful, aggressive degreasing

**APPLICATION GUIDE**

**Tools Required**

- Lint free cloths

**Surface Preparation And Instructions For Use**

Two speeds of degreaser are provided the fast degreaser is for localised panel repairs and the slow is for larger repairs and resprays.

Apply generously to the area to be coated using a clean, lint-free cloth.

While the panel remains wet, wipe with a clean dry cloth until the degreaser has been completely removed.

SYSTEM 20 DEGREASER is designed for use over bare metal and existing paint surfaces.

**IMPORTANT**: FOR PROFESSIONAL USE ONLY. Read full instructions before use.
